Webinar Description:

The case presentation requirement at PSP is intended to provide a learning tool for both the “presenter” and the other participants. Rather than choosing a case that enables the student therapist to demonstrate her brilliant skills as an analyst, the student is advised to select a case that highlights some aspect of the treatment relationship that the therapist finds challenging. During the semester each student is expected to present sections of the write-up as well as engage in class discussion.

Webinar Objectives:

At the conclusion of this course, the student will be able to:

1. Present a portion of the case presentation in class, primarily focusing on the treatment relationship.
2. Incorporate the case presentation outline into a completed 2-4-page case presentation write-up.
3. Integrate a minimum of 5 ABAP Core Competencies into the case presentation write-up.
4. Identify problem areas in the case chosen and discuss in class.
