### **WEBINAR DESCRIPTION:**

As Freud's psychoanalytic theory and technique evolved, he placed increasing emphasis on the roles of the ego and its relations with internal and external objects in the emotional life of human beings. It was up to the next generation of analysts, however, to develop these themes in ways that profoundly altered and expanded the psychoanalytic landscape. Thus, this course will focus on the pioneering contributions of Anna Freud, Melanie Klein, Ronald Fairbairn, Donald Winnicott and Harry Guntrip to modern psychoanalytic theory and technique.

### **WEBINAR OBJECTIVES:**

1. To become familiar with authors foundational to modern ego psychology and object relations theory
2. To become familiar with the historical evolution of psychoanalytic technique and how this evolution lays the ground work for modern psychoanalytic treatment.
3. To provide a critical framework for comparing and contrasting approaches to psychoanalytic treatment.
4. To provide an environment for dialogue in which students are encouraged to make connections between reading assignments and their own clinical and life experiences.
5. To familiarize students with the "literature" of psychoanalysis and how it's reading can enrich their work.
