Practice address: 227 Jeffrey Lane, Newtown Square, PA 19073

Priscilla Bright, PhD, NCPsyA

Dr. Bright received her doctorate in Clinical Psychology in 1983. Her doctoral thesis indicated that women who were depressed had a more factually accurate response to a story than those who were not depressed.

Dr. Bright was certified in Psychoanalysis in 1984. She is a senior Supervising and Training Analyst at the Institute. At PSP, Dr. Bright taught *Maturation and Development* and served on the Board of Directors for many years.

Dr. Bright has been a psychologist and psychoanalyst in Private Practice for 35 years. She focuses on relationships, specifically transference and objective/subjective countertransference as well as the way these are reenacted in supervision. Her PSP thesis examined characteristics of the maternal-fetal bond by analyzing the emotional response of mothers to prenatal loss.

Since 2001, in addition to her work with patients, Dr. Bright has worked with individuals as an Executive Development Consultant where she uses the principals of Psychoanalysis.
